

MCBEE

CRAFTING INTELLIGENT LUXURY

For over 14 years, MCBEE has been creating spaces where design, technology, and experience come together effortlessly.

With a portfolio that spans India, Dubai, and Singapore, and collaborations and consulting across Switzerland, France, Qatar, Nepal, Bangladesh, and beyond — we've had the privilege of working with over 100 discerning clients who value thoughtful design and flawless execution.

Every MCBEE project begins with a single idea — to make technology invisible yet indispensable.

MCBEE

DESIGN-LED TECHNOLOGY

At MCBEE, we believe true luxury lies in the details you don't see. Our role is to design intelligent, seamless systems that elevate a space without interrupting its design language.

From automation and lighting to audio-video, security, and networking, every solution is tailored to how you live and what inspires you.

We work closely with architects, designers, and homeowners to ensure that every project achieves a perfect balance between aesthetic harmony and technical precision.

MUSICAL FOUNTAIN

The choreography of water, light, and music in perfect harmony.

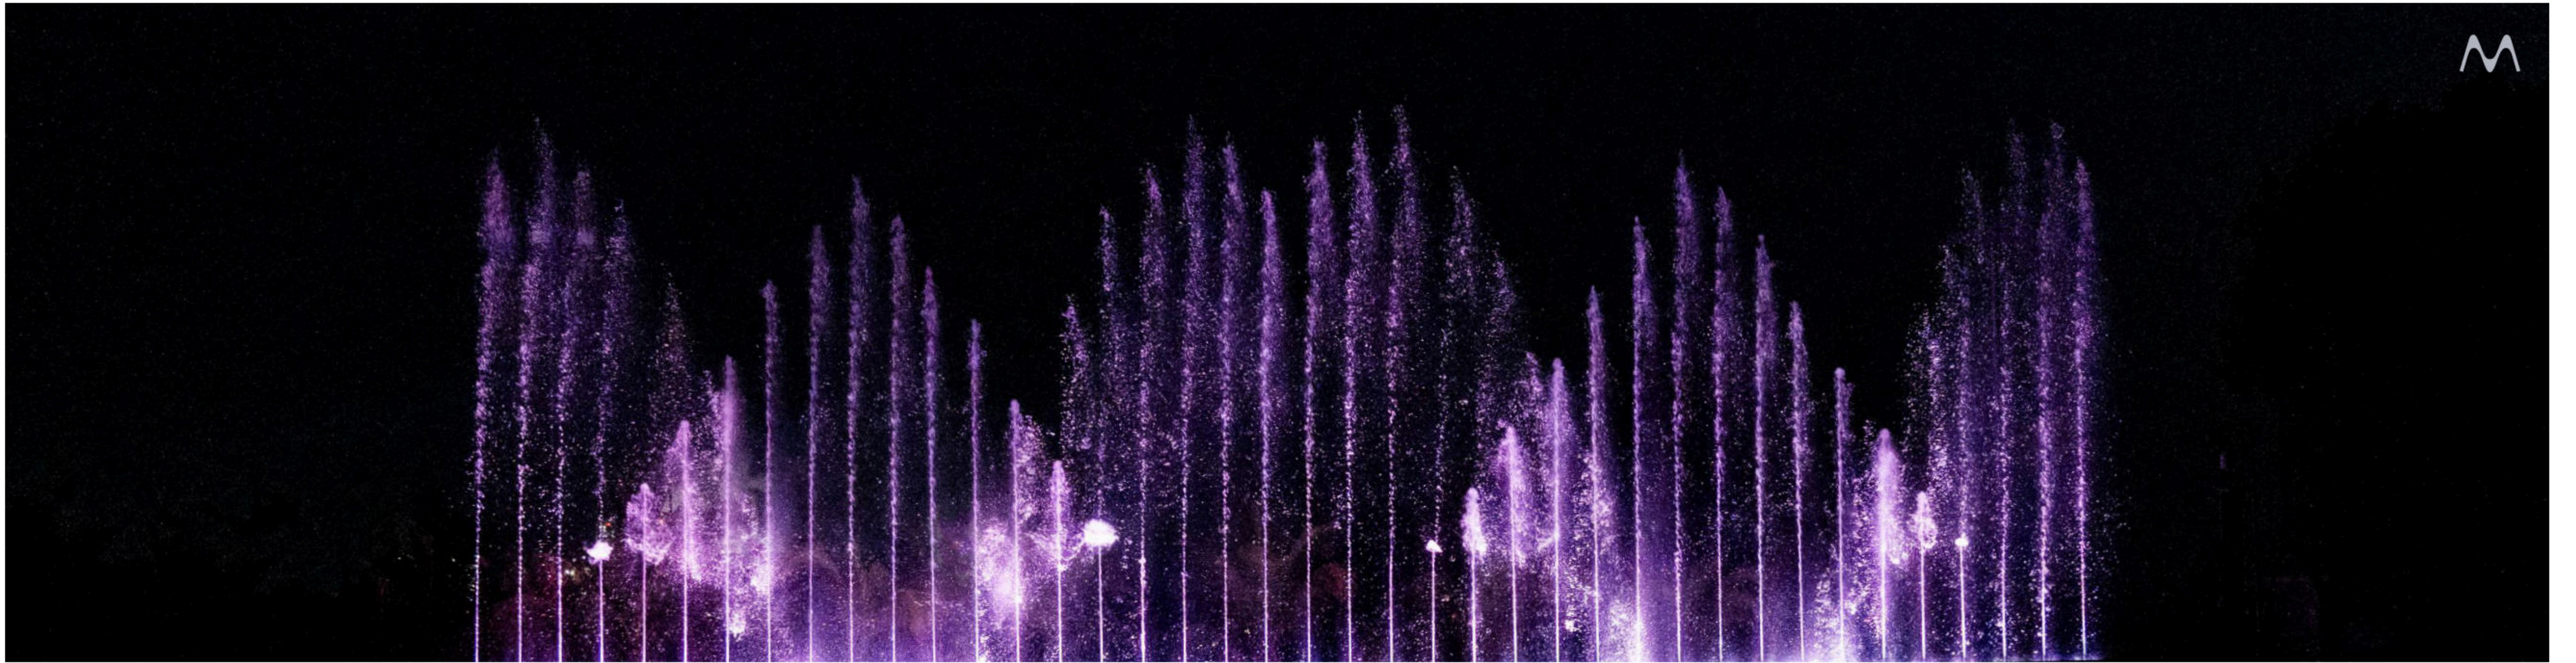

Our designs turn plazas, estates, and resorts into destinations, creating spectacles that stir emotion and invite connection. From dramatic landmark attractions to serene water features, each is engineered to move both water and hearts.

A large-scale photograph of a musical fountain at night. The fountain consists of numerous vertical jets of water, all illuminated with a vibrant blue light. The jets are arranged in a wide, slightly curved arc across the background. In the foreground, there is a series of wide, shallow steps or terraces, each with small, warm-white lights embedded in them. A central walkway leads towards the fountain. The overall scene is dark, with the blue of the water and the warm white of the ground lights providing the primary illumination. The sky is black, and some dark foliage is visible on the right side.

MCBEE

MCBEE

PRECISION MEETS PASSION

Integration. Design. Innovation.
These words define who we are and how we work.

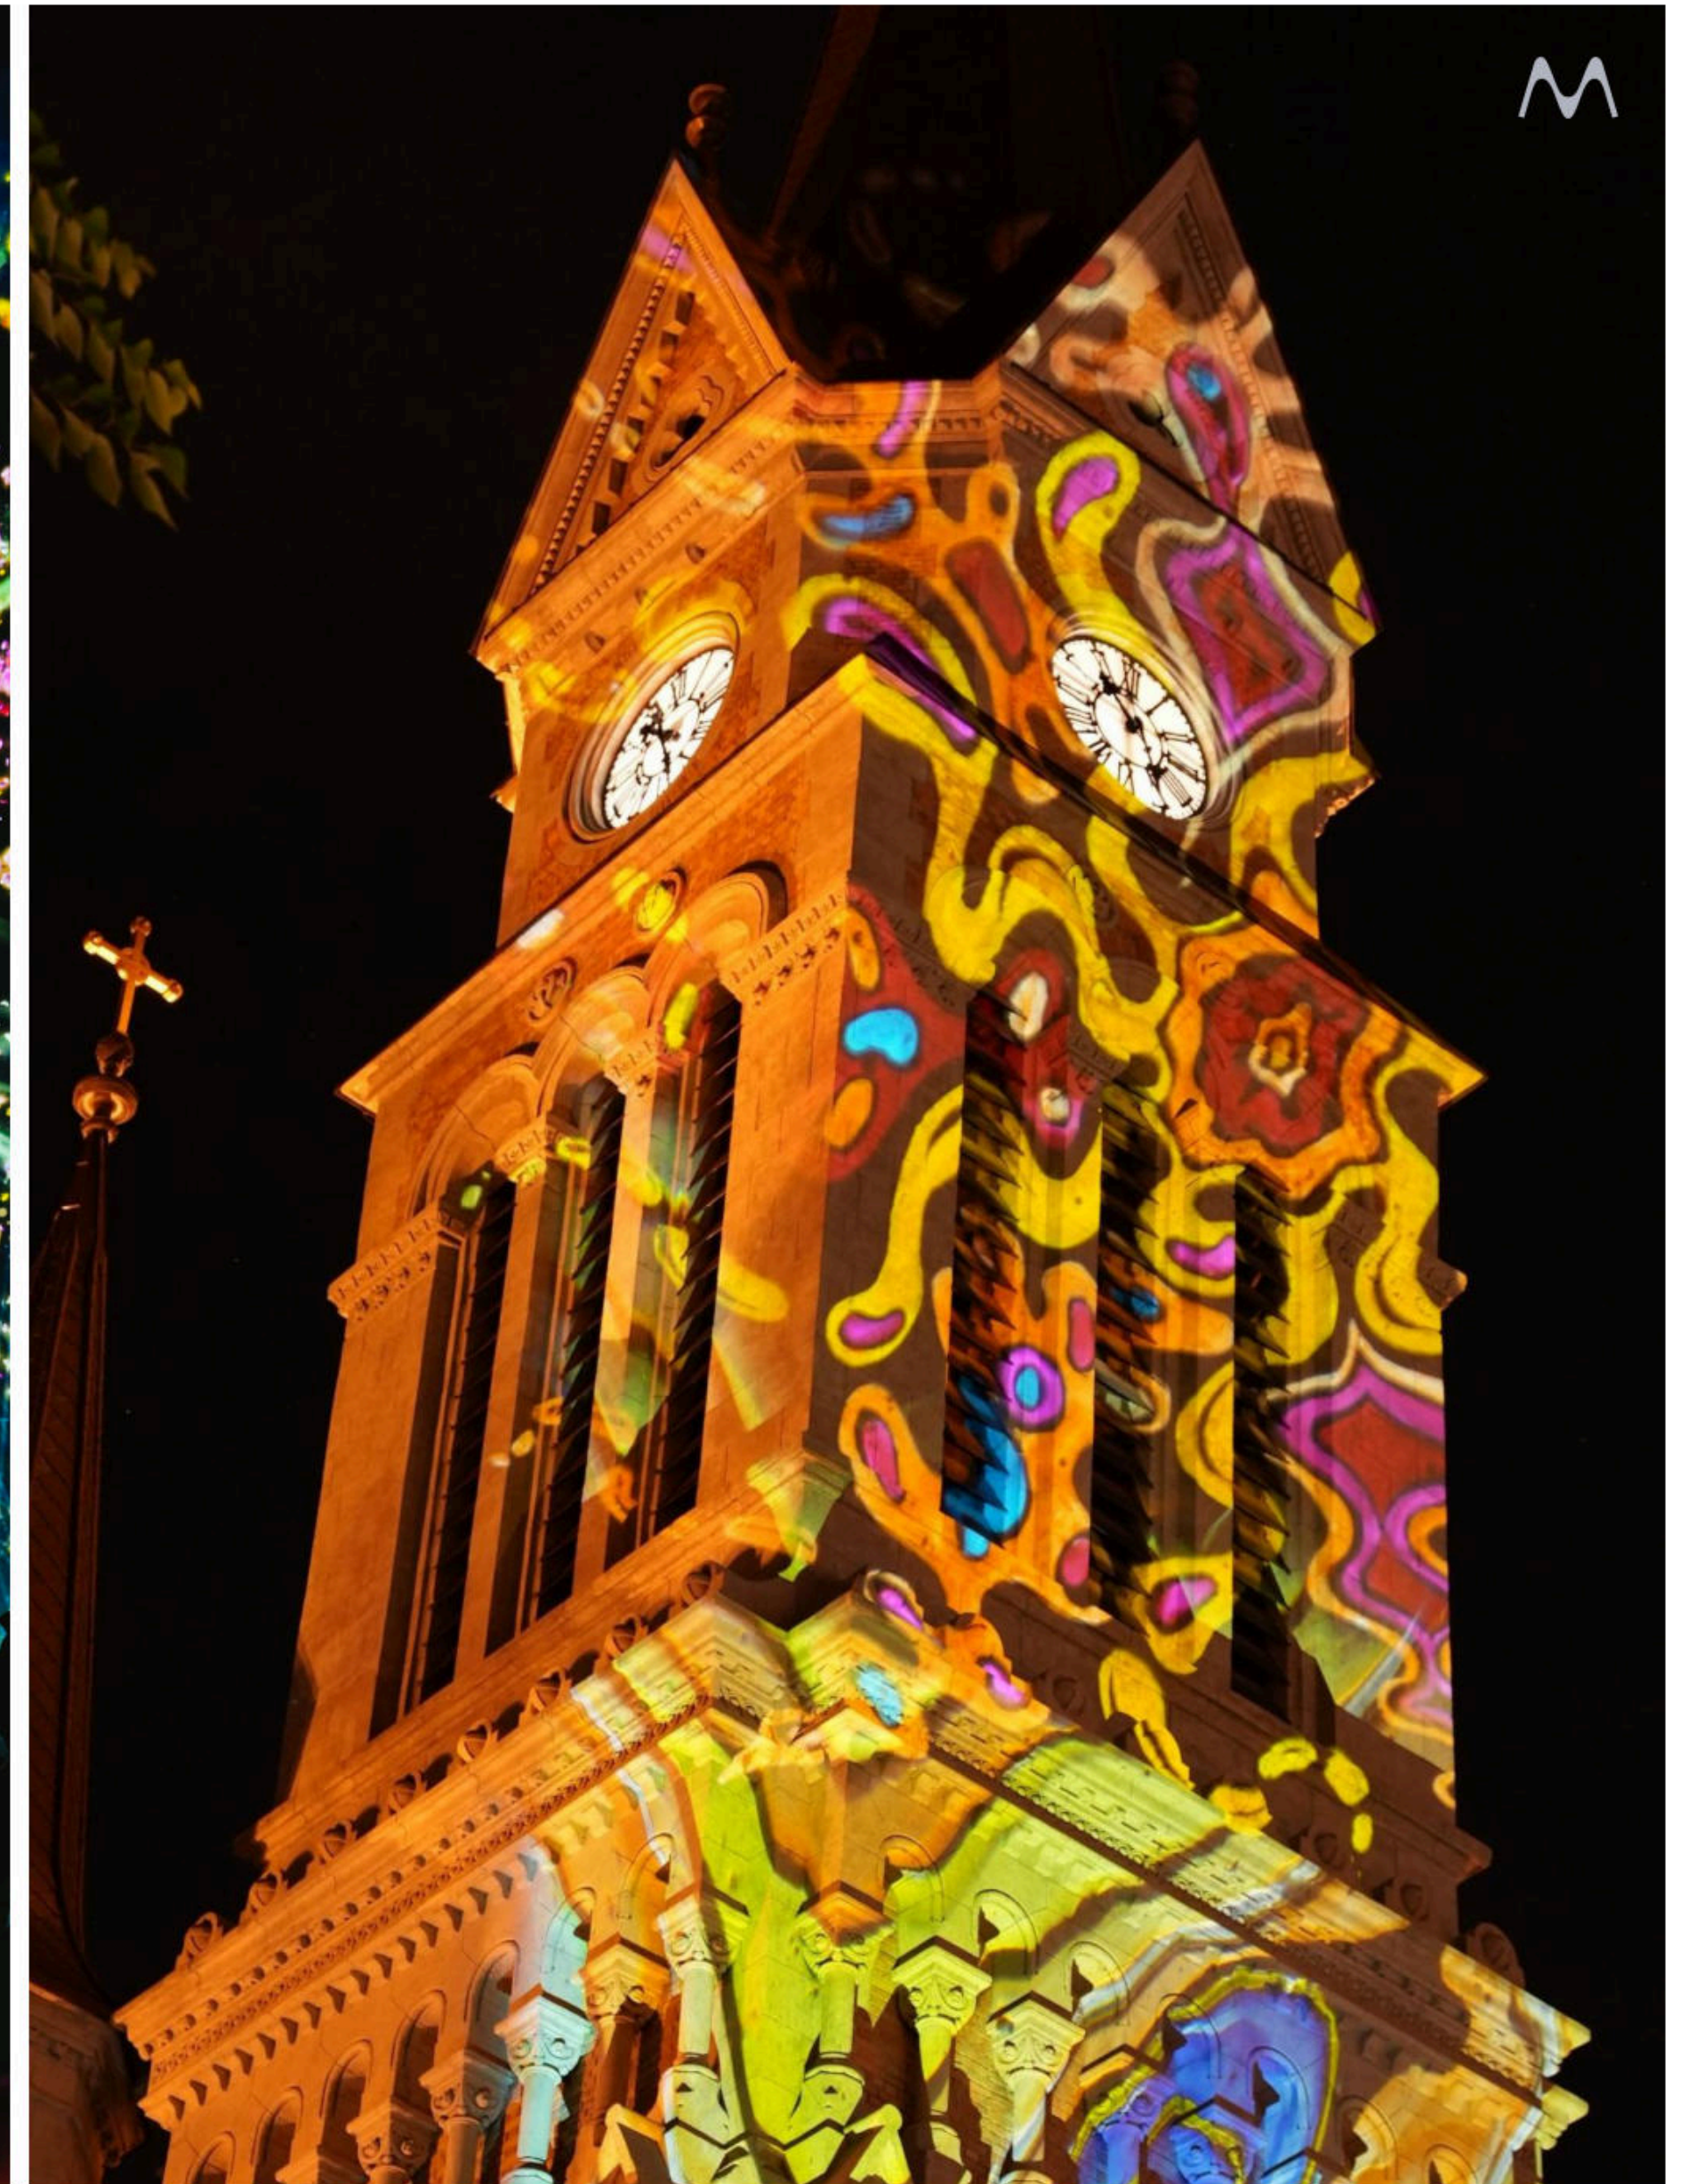

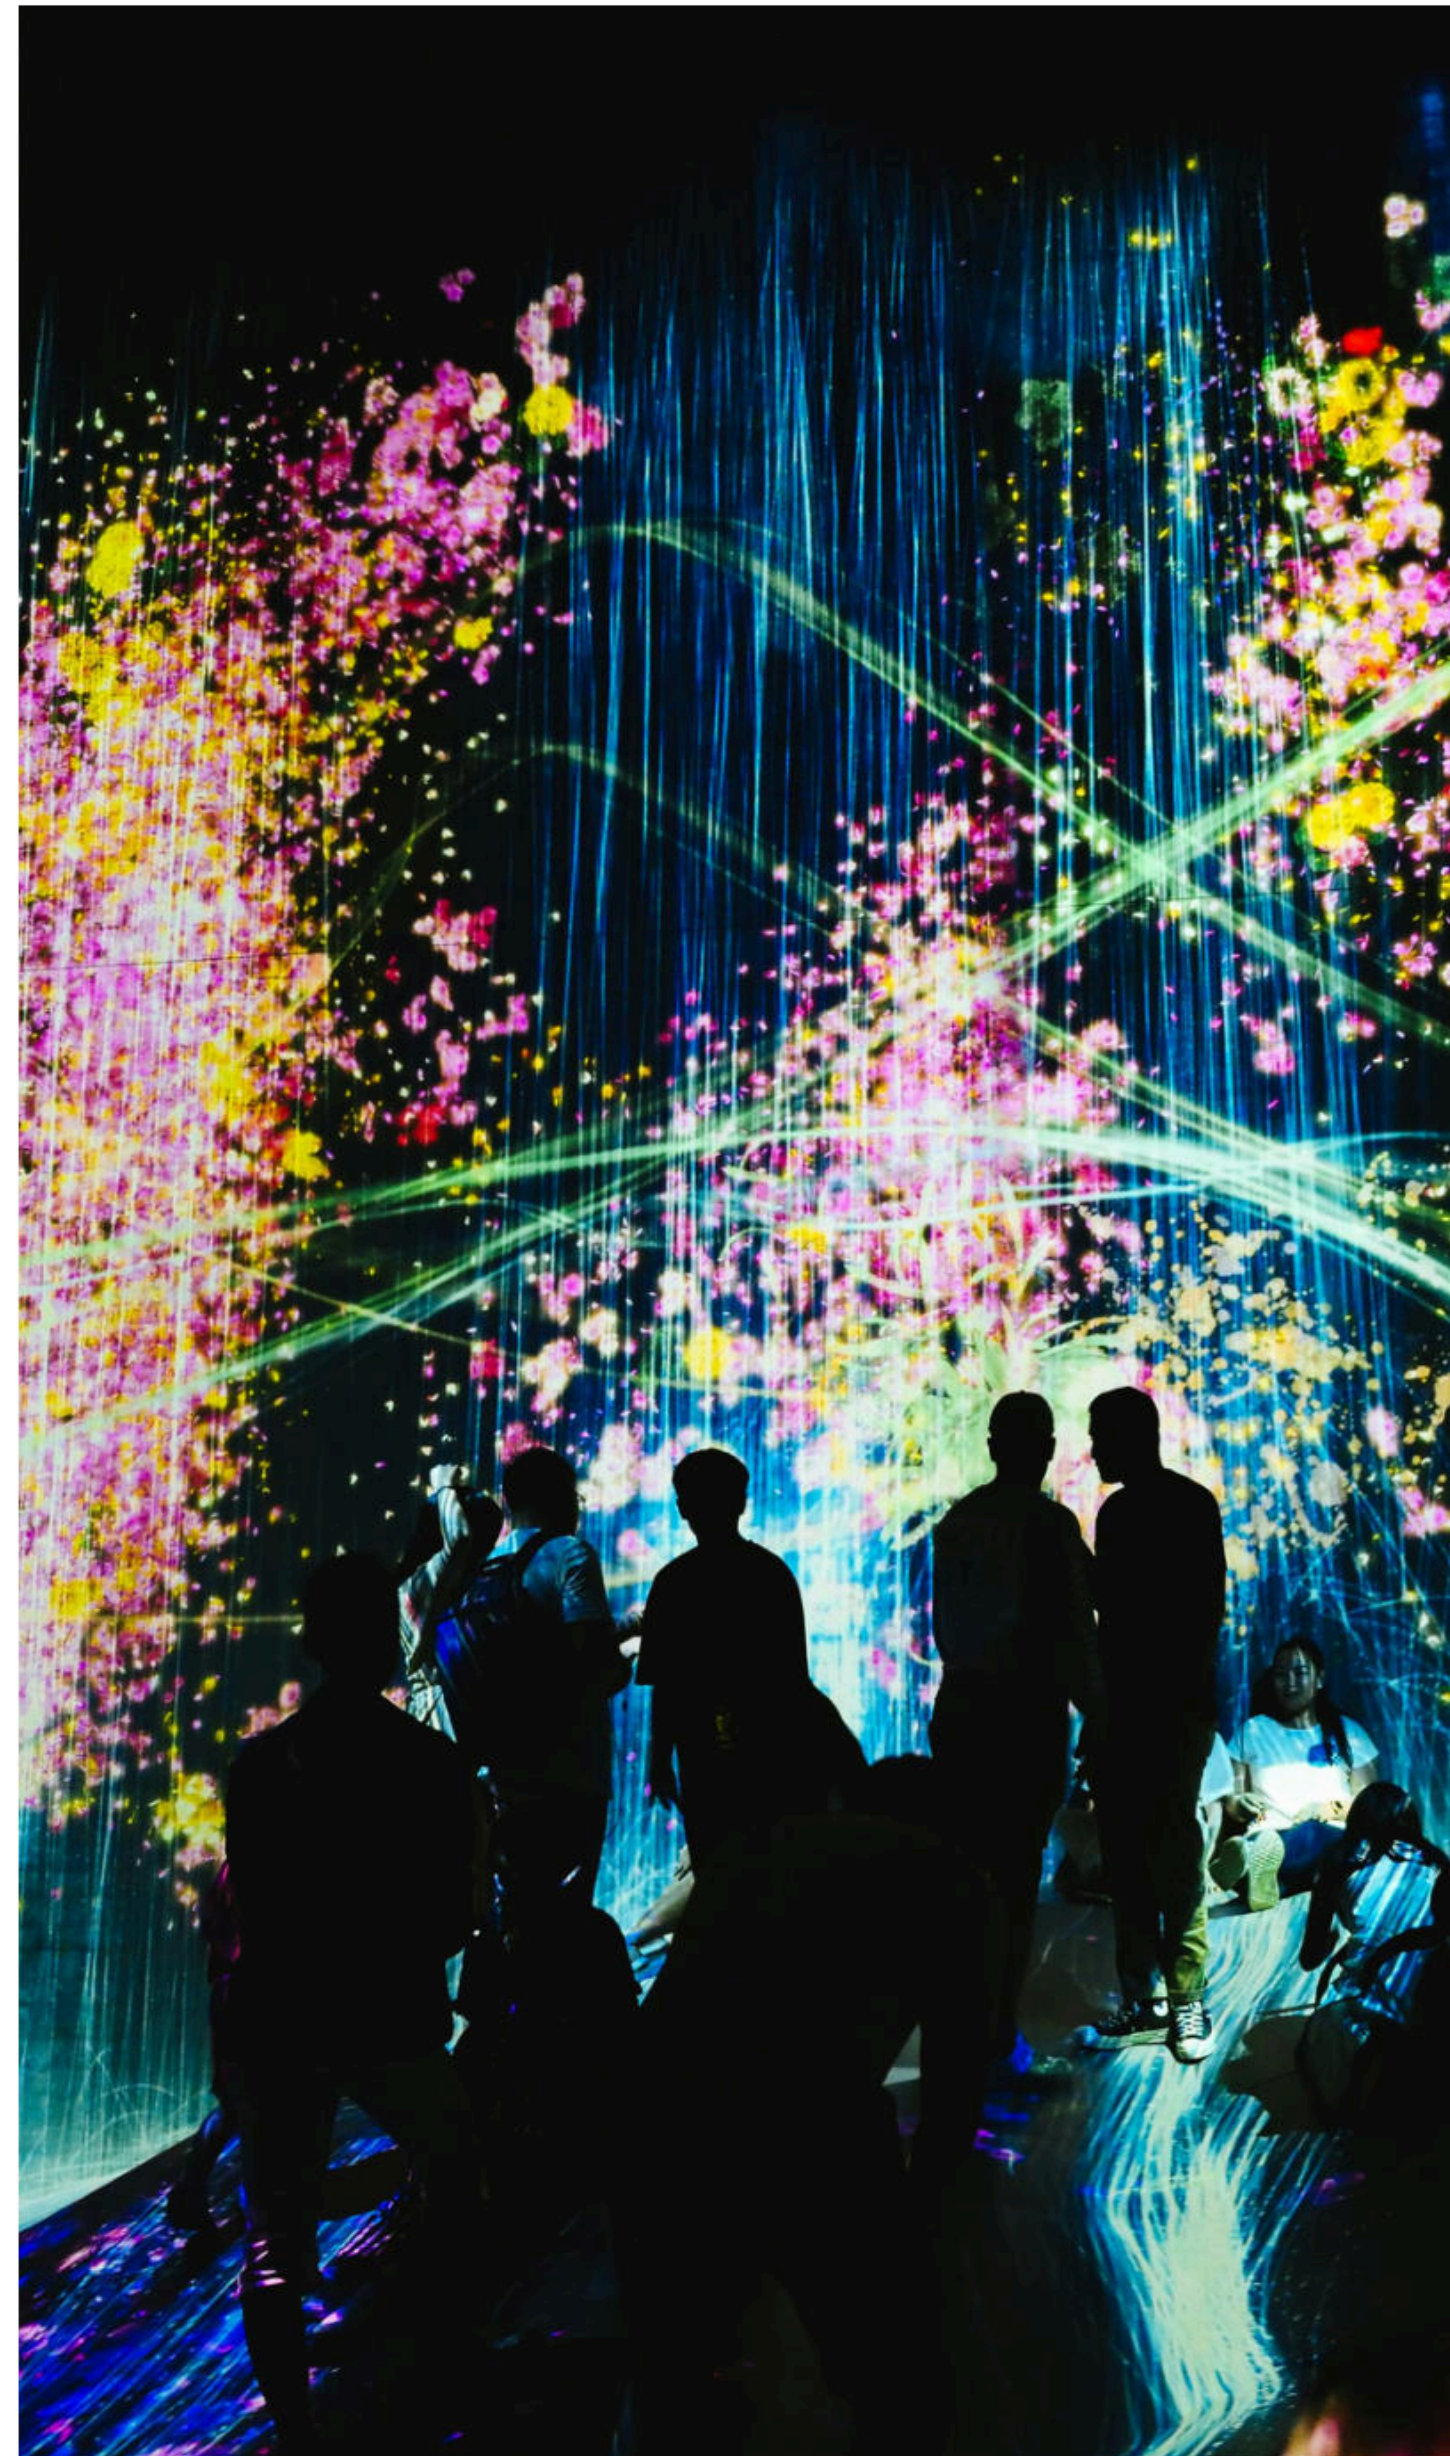

Our team's passion lies in transforming complex technologies into experiences that feel natural, intuitive, and human.
Every MCBEE installation is crafted with care — balancing form and function to deliver spaces that work beautifully and feel effortlessly alive.

PROJECTION MAPPING

Surfaces transformed into storytelling canvases. We turn architecture into living, breathing art, whether it's an intimate dining room ceiling or the façade of a landmark building. Each installation is tailored, blending technology and narrative to create moments that captivate and inspire.

MCBEE

CELEBRATED ON THE GLOBAL STAGE

Our pursuit of excellence has been recognised on international platforms:

- CEDIA Awards (2024) – Best Integrated Home (Level III, EMEA), Excellence in Lighting, Technology Meets Design Global, and more.
- CEDIA Awards (2023) – Best Integrated Home (Ultra Luxury, EMEA).
- CEDIA / CE PRO / CES (2021–2022) – Awards for Best Home Cinema, Best Multi-Dwelling Unit, and the CES Mark of Excellence.

These honours reflect our commitment to pushing boundaries and delivering experiences that stand among the world's best.

MCBEE

THE MCBEE DIFFERENCE

- Tailored Expertise: Every space is designed around your lifestyle, vision, and rhythm.
- Design-Driven Integration: Technology should enhance design — not compete with it.
- Global Perspective: With active projects and consulting across continents, we bring international expertise with local craftsmanship.
- Attention to Detail: True luxury is found in precision — the quiet perfection behind every seamless experience.
- Relationships Built on Trust: Our long-term client partnerships reflect our integrity, discretion, and consistency.

WHERE DESIGN MEETS DEVOTION

At MCBEE, we believe technology should feel like poetry — subtle, balanced, and deeply personal.

Every light, every sound, every interaction is designed to elevate the way you live, work, and feel.

MCBEE

AUDITORIUM

Where technology meets architecture to create inspiring spaces for performance, presentations, and collaboration.

Our auditorium projects are designed for acoustic excellence, seamless automation, and immersive audiovisual experiences ensuring every seat enjoys perfect sound, crystal-clear visuals, and effortless control

From intelligent lighting that adapts to events, to state-of-the-art projection and audio systems, we integrate solutions without compromising on aesthetics. Whether it's a corporate hall, educational institution, or cultural venue, MCBEE transforms spaces into world-class auditoriums that leave a lasting impact.

NIGHT CLUBS

MCBEE transforms nightclubs into intelligent performance environments where technology and human experience fuse. With dynamic lighting that shifts with the rhythm, immersive soundscapes tuned for clarity and depth, and interiors designed to amplify movement and mood, every element works together to heighten the experience. The result is a space that feels alive, fluid, electrifying, and unforgettable.

MCBEE

RESTAURANTS & BARS

MCBEE curates restaurants and bars as environments where design and atmosphere elevate dining into an experience. Warm, adaptive lighting creates ambience and vibrancy, while refined acoustics encourage effortless conversation without losing the energy of the space. With interiors that blend comfort and sophistication, every detail is considered to enrich mood, enhance connection, and leave a lasting impression long after the last glass is raised.

OUR CURIOSITIES

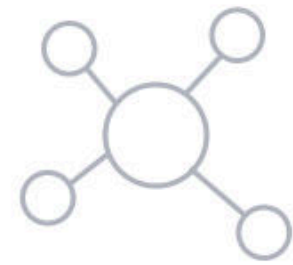

We call our services Curiosities because they are not merely technical solutions – they are passions pursued with precision, artistry, and a deep respect for the spaces and lives they inhabit. Each is a discipline we have mastered, yet one we continue to explore with fresh eyes and boundless creativity.

DYNAMIC LIGHTING

Light is architecture's poetry, and we write it with precision.

Our designs can be subtly atmospheric or boldly theatrical, using the latest dynamic and interactive lighting technologies. We shape environments that shift with mood, occasion, and time of day — leaving a lasting impression long after the moment has passed.

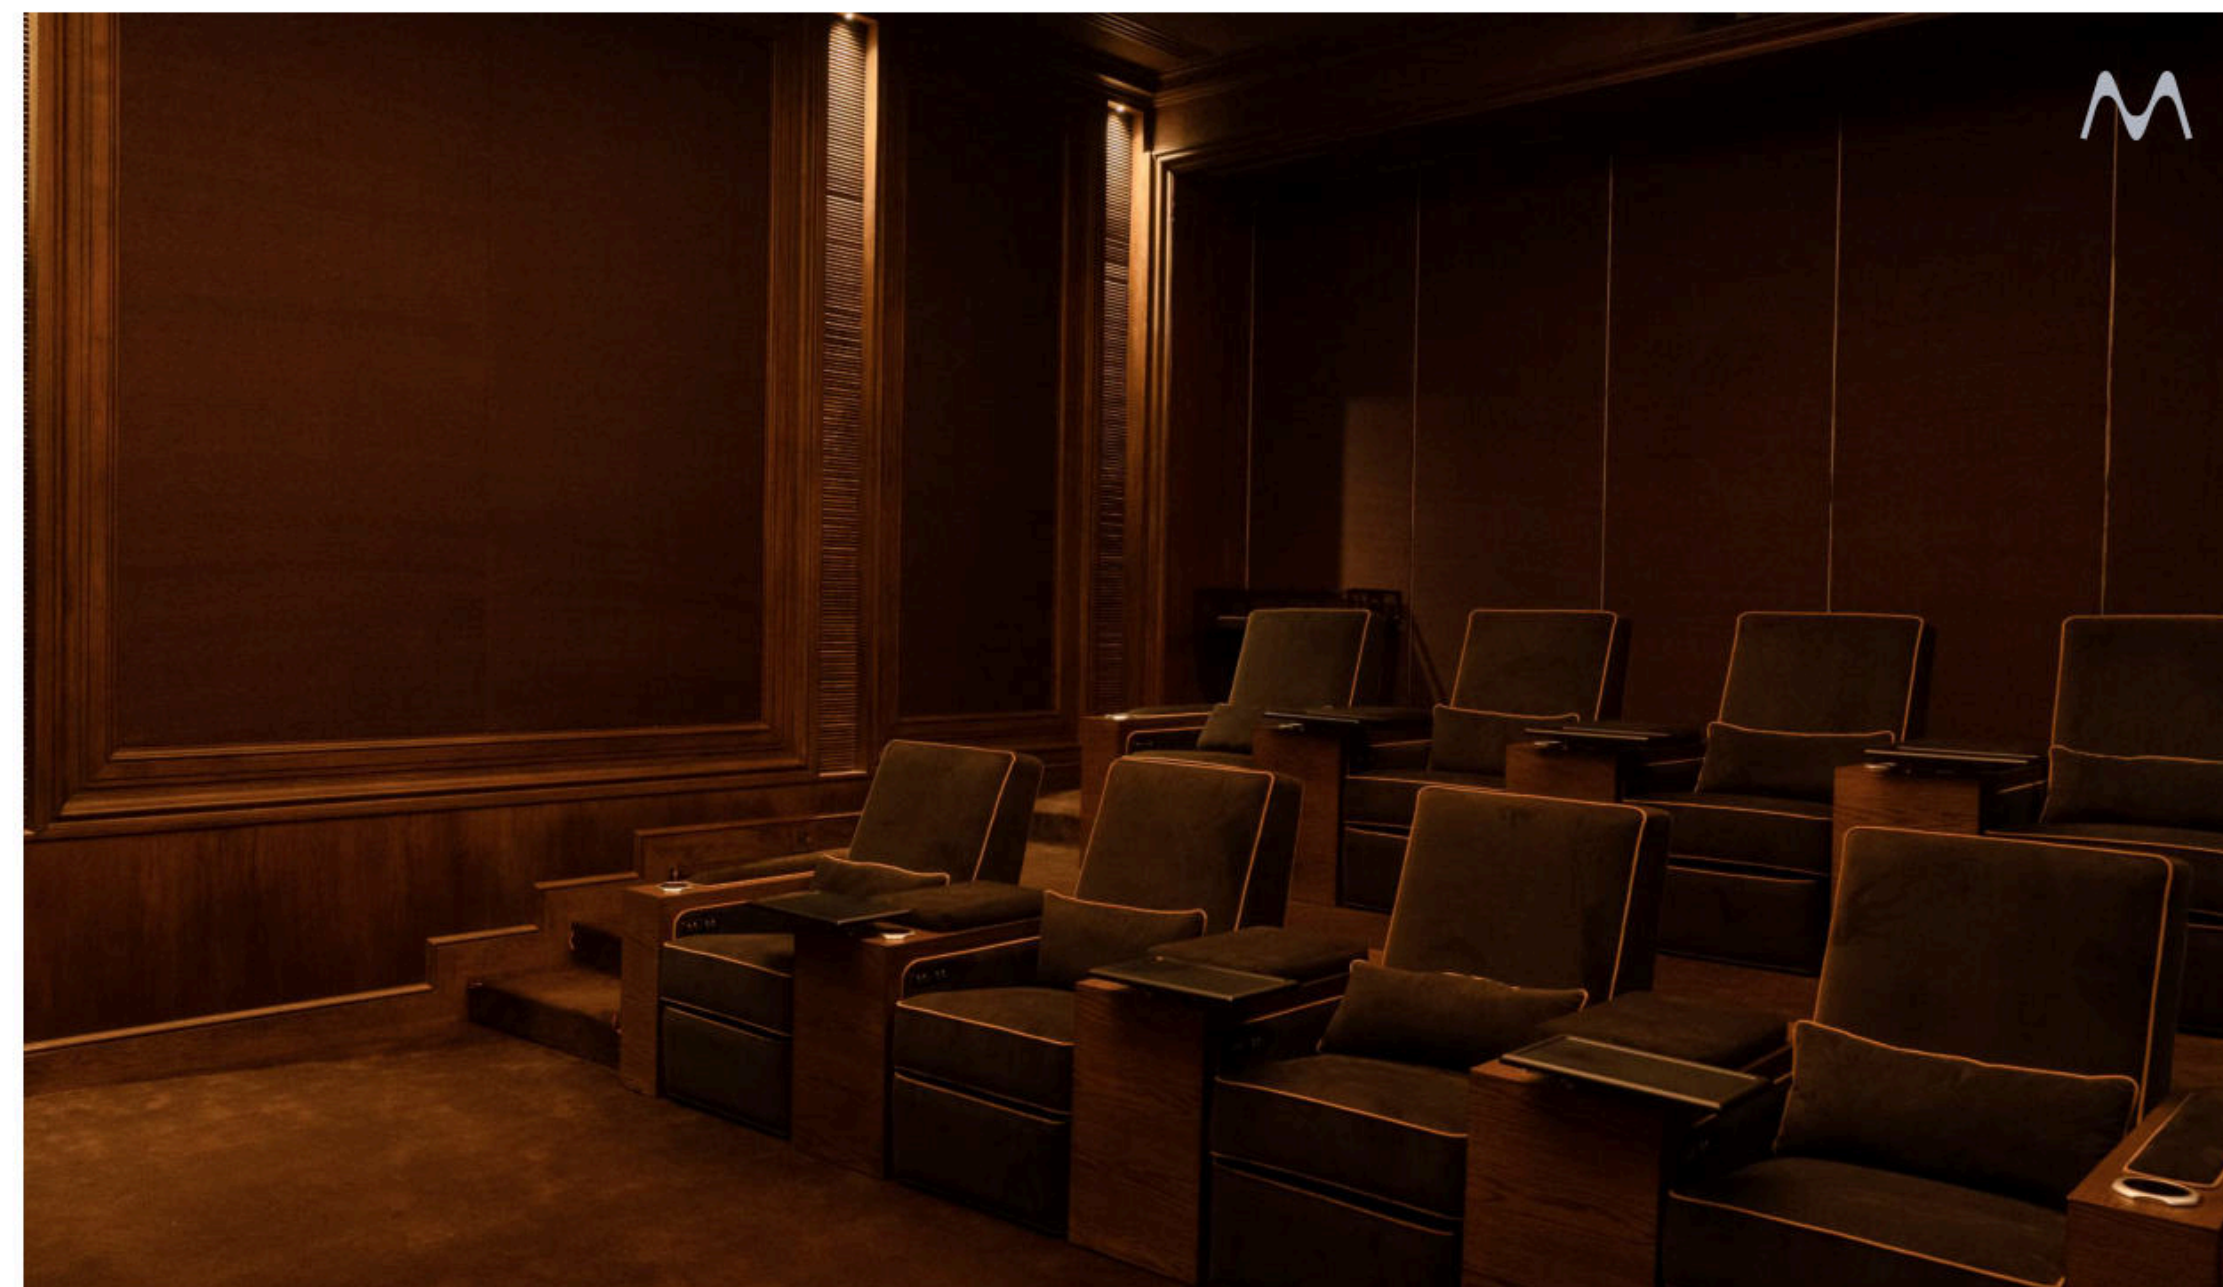

MCBEE

MCBEE

LUXURY PRIVATE CINEMAS

Cinemas where the boundaries between screen and reality dissolve.

We engineer private theatres that rival and often surpass the best public cinemas, with acoustics, projection, and seating ergonomics carefully orchestrated to deliver absolute immersion.

MCBEE

EXPERIENCE CENTRE

The MCBEE Experience Centre is a space where innovation is not just displayed, but lived. Designed as an immersive environment, it showcases the full spectrum of our capabilities integrating large-format interactive displays, projection mapping, intelligent lighting, and high-fidelity audio. Every zone is engineered to engage the senses, guiding visitors through a orchestrated journey of discovery. It is here that technology, storytelling, and design ,converge demonstrating how McBee transforms environments into experiences that inspire, inform, and captivate.

MCBEE

The Amazing Spider-Man 2

With his love life at a crossroads, Peter contends with a new crop of monstrous enemies created by experiments at Oscorp.

SECURITY SYSTEM

Discreet protection for the world's most valuable spaces.

From high-definition CCTV to advanced access control and intrusion detection, we create integrated systems that blend seamlessly with your interiors while offering uncompromising security.

MCBEE

BEE SIMZ

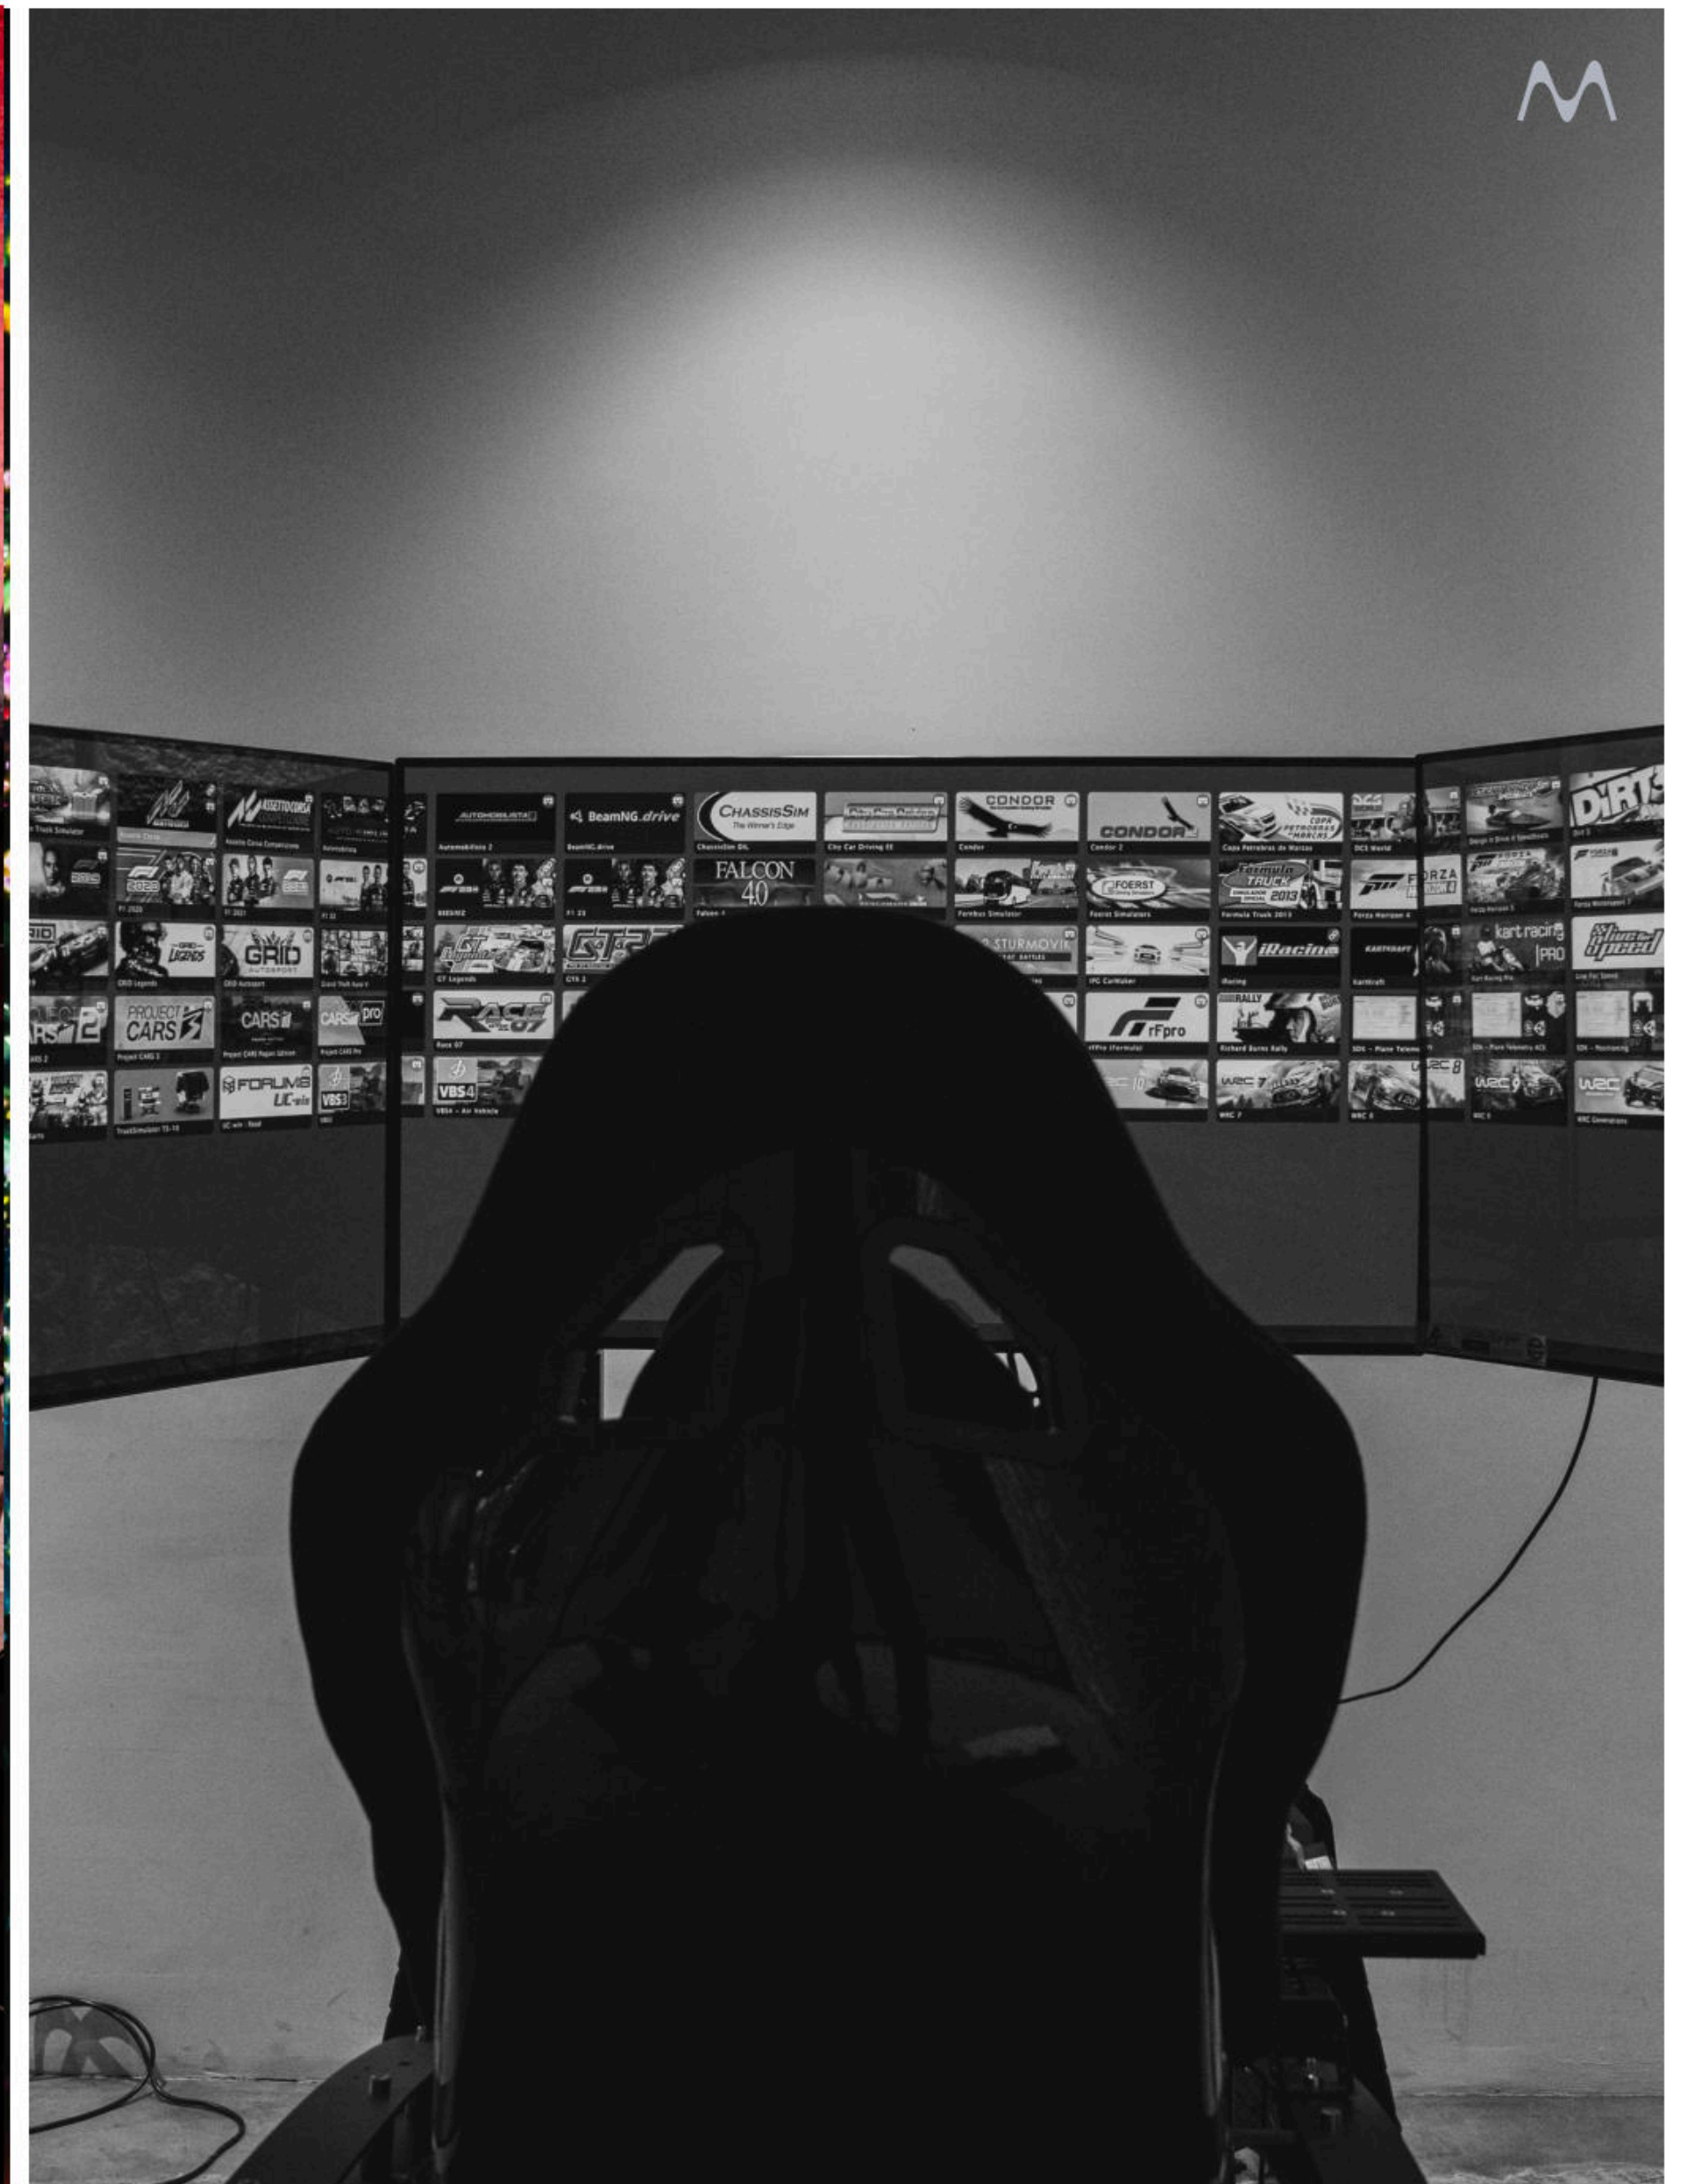

At BeeSimz, we bring the excitement of Formula 1 right to your seat.

Every simulator we build captures the heart-pounding rush of the track – the roar of the engine, the tension in every turn, and the thrill of crossing the finish line.

Our F1 simulators are designed to feel real, whether you're a professional driver honing your skills or a racing enthusiast chasing the ultimate experience. With lifelike visuals, responsive motion, and immersive sound, every moment behind the wheel feels alive.

At BeeSimz, it's not just about simulation – it's about feeling the speed, mastering the track, and living the race.

MCBEE

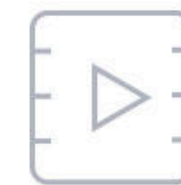

MCBEE

NETWORK SOLUTIONS

The invisible foundation of modern living.
Our networks are fast, secure, and future-ready, designed to handle everything from entertainment streaming to security, remote work, and home automation – with effortless reliability. We ensure that your system not only serves today's needs but is ready for tomorrow's technologies.

AUTOMATION

Our automation solutions blend lighting, audio-visual systems, electrical controls, and security into one intelligent network that enhances comfort, efficiency, and elegance. From lighting that adapts to every mood and moment to audio-visual setups that elevate how you connect and communicate, we design systems that feel natural and effortless. Whether it's a corporate office, a luxury home, a retail space, or a hotel, MCBEE creates environments that work seamlessly and look beautiful. We don't just build smart spaces, we create experiences that respond, inspire, and grow with you.

MCBEE

AUDIO SOLUTIONS

We create soundscapes that move beyond hearing into pure emotion. From whole-home audio systems that let music flow seamlessly through your spaces, to reference-grade private cinemas with breathtaking clarity, every note is tuned to perfection.

Our outdoor audio designs withstand the elements without compromising fidelity, transforming terraces, gardens, and pool decks into concert stages under the open sky.

SMART AV INTEGRATION

Technology that works in unison – elegantly and invisibly.

We unify **automation, AV, lighting, climate, and security** into a single, intuitive interface. It's not just convenience – it's the art of control without complexity.

The MCBEE logo, consisting of the word 'MCBEE' in a bold, sans-serif font, is positioned in the bottom left corner of the image. The background of the entire page is a black and white photograph of a man in a t-shirt with 'MCBEE' on the back, standing in front of a large wall of server racks with glowing lights.

OUR PROCESS - FROM VISION TO REALITY

Every MCBEE project begins with curiosity — a desire to understand not just the space we are designing for, but the life that will unfold within it. From our first conversation to the final handover, our process is an orchestrated experience, ensuring that every detail is deliberate and every decision serves both form and function.

MCBEE

FIRST FIX

SECOND FIX

THIRD FIX

The Foundation

The invisible architecture of your system is laid during the first fix.

This includes running cables, terminating panels, installing containment trays, and preparing all concealed infrastructure. Access points, power sources, and pathways are planned to perfection.

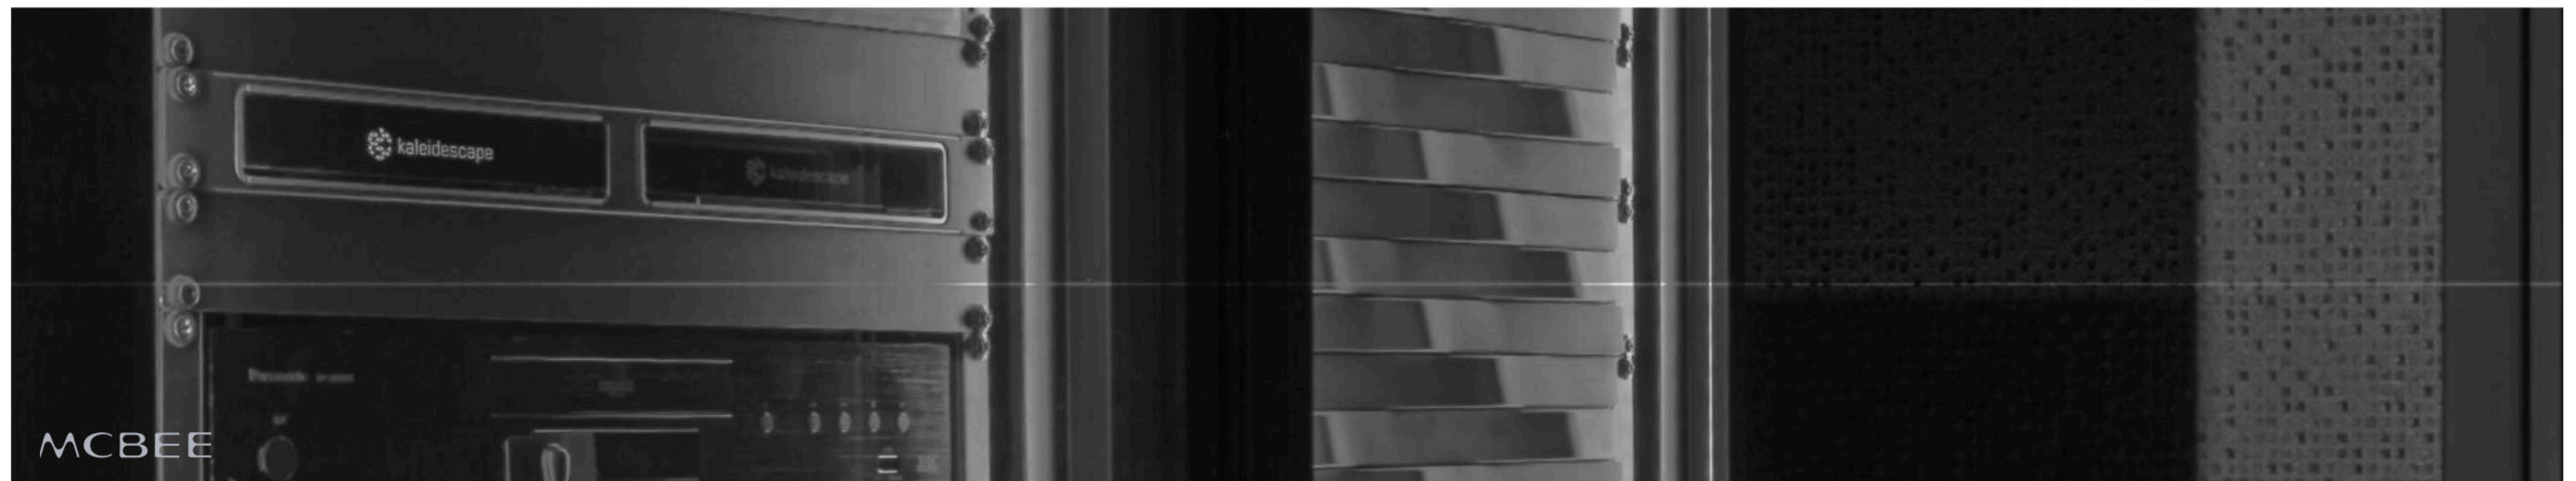

By the time the walls are closed, your system's backbone is already in place — unseen, but ready to perform flawlessly.

Precision in Place

The visible elements begin to take shape. Keypads, sockets, speakers, screens, and other built-in equipment are installed with meticulous care, often overlapping with final finishes like painting and décor. Every component is positioned with both technical accuracy and visual harmony in mind.

The Art of Completion

The visible elements begin to take shape. Keypads, sockets, speakers, screens, and other built-in equipment are installed with meticulous care, often overlapping with final finishes like painting and décor. Every component is positioned with both technical accuracy and visual harmony in mind.

BEECARE & ONGOING SUPPORT – BEYOND INSTALLATION

At MCBEE, our relationship with you doesn't end when the systems are switched on – it evolves.

We believe that luxury technology should remain as flawless in year ten as it was on the first day. BeeCare is our dedicated aftercare philosophy, ensuring your systems not only perform perfectly, but also adapt as your needs evolve.

Our ongoing support is designed to be as seamless and discreet as our installations:

- **Proactive Maintenance** – Scheduled check-ups, software updates, and fine-tuning to keep every element at peak performance.
- **Familiar Faces** – Wherever possible, the same engineers who built your system will care for it, ensuring efficiency and continuity.
- **Rapid Response** – Priority support to address unexpected issues without disrupting your lifestyle or operations.
- **Future-Readiness** – Advising on upgrades and enhancements so your investment stays relevant in a fast-moving technology landscape.

For many of our clients, BeeCare is a silent assurance – a knowledge that their technology is in the hands of people who know it better than anyone else.

WHY CHOOSE MCBEE

Customized System Design:

No Template Solutions. Every Project Is Engineered From Requirements—Whether Managing A Single Residence Or Coordinating Technology Across A 45,000 Sq Ft Clubhouse With Multiple Zones, Theaters, And Commercial Spaces.

40+ International Awards:

CEDIA Best Home Cinema Global, Best Integrated Home EMEA, Multiple Dwelling Unit Winner, Technology Meets Design, Excellence In Support & Maintenance, CES Mark Of Excellence, CE Pro Best Home Cinema, Crestron Ultimate MDU.

Long-Term Serviceability:

Systems Designed For Future Maintenance And Upgrades. Detailed Documentation, Accessible Equipment Placement, And Modular Infrastructure Ensure Technology Can Evolve With Changing Requirements Over Decades Of Operation.

Post-Installation Support:

Winner Of CEDIA Excellence In Support & Maintenance 2025. Ongoing System Monitoring, Remote Diagnostics, Firmware Management, And On-Site Technical Support When Needed.

Proven Track Record:

14 Years Serving Luxury Residences, Corporate Headquarters, Commercial Venues, And Hospitality Projects Across India, Dubai, Singapore, Switzerland, France, Qatar, Nepal, And Bangladesh.
